

The All-New **TS 55 REQ** Plunge Cut Saw

Unmistakably the best
saw you'll ever own

FESTOOL®

Tools for the toughest demands

New Products | May 2013

Plunge Cut Tracksaws

Incredibly versatile and unbelievably simple. Stop wasting time and material today.

See pages 8-9 for details.

Dust Extractors

Save time and money by capturing dust at the point of creation with tools engineered for highly efficient dust containment.

See pages 14-15 for details.

Buy with confidence.

FESTOOL®

30-Day Money-Back Guarantee – If you are not completely satisfied, return your tool to the selling dealer within 30 days and you will receive a refund of either your purchase price or the lowest retail price at which the same item has been offered since your date of purchase. Freight charges are not refundable.

1+2 Limited Warranty – Festool warrants that the specified tool will be free from defects in materials and workmanship for a term of 3 years from the date of purchase. And we'll even cover shipping for the first full year.

Mobility & Storage

Don't make organization an afterthought. Work more efficiently to stay more competitive.

See pages 16-21 for details.

CMS Routing System

In the shop or on the jobsite, the CMS delivers uncompromising routing precision and tremendous portability.

See page 22-23 for details.

Rubin 2 Abrasives

For all wood applications

Cordless Solutions

See page 26-27 for details.

“The only people you hear asking questions like ‘Is Festool worth it?’ are those who’ve never tried Festool tools. They’re tools that, after using once, I just couldn’t do without.”

Jory Brigham
Jory Brigham Design

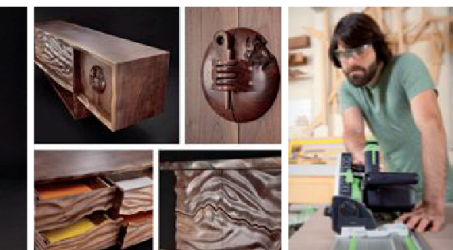

CALIFORNIA

“I’ve been surrounded by woodworking since I was a kid. I turned making furniture into a livelihood because it was the only thing I absolutely loved doing. Building furniture is part of who I am, and it’s crucial that I feel confident every piece was done to the best of my ability. Having the best tool for the job gives me the opportunity to focus on other things with my business, the things I don’t control. The

efficiency and reliability Festool provides is something that I’ve grown to depend on. My success depends on the quality of furniture I build, and I can’t take chances with the tools I use.”

See how Jory uses Festool to create distinctive, high-quality custom furniture that lasts.

www.tracksaw.com/tracksaw/videos

Darcy Warner
Warner Construction

INDIANA

“They make stuff that’s heirloom quality. Festool doesn’t make everything, but what they do make is sure a heck of a lot better than anything else.”

“My business focuses on custom woodwork, on-site remodeling, finish carpentry, built-ins, and trim work. Needless to say, none of the jobs I do are the same from one day to the next. Because things are constantly changing, I need tools that are consistent, accurate, durable, and extremely versatile. I use the Festool TS 55 for everything from breaking down sheet goods and straight-lining lumber, to getting the details right on custom trim work.

It’s simple to use and I can take it into any indoor job site. Although Festool doesn’t make everything, the tools they do make are sure a heck of a lot better than anything else.”

Hear Darcy talk about how Festool allows him to take the tools to the work.

www.tracksaw.com/tracksaw/videos

The best solution for all of your sawing needs.

Festool TS Plunge Cut Saws, paired with the FS Guide Rail system, offer the versatility and capability to achieve incredible results in your most challenging applications. Many professionals have already discovered how they can replace the functionality of a table saw, miter saw, or panel saw with our tracksaw system. Discover for yourself a method of work that words simply cannot describe.

www.tracksaw.com/tracksaw/applications

Sheet Goods

Break down heavy sheets of material quickly and safely.

Jointing

Straight-line rough lumber in mere seconds.

Door Trimming

Trim doors faster, with incredible precision and zero splintering.

Precise Angles

Make compound cuts in any width material, quickly and without complex calculations.

Crosscuts

Alone or paired with the MFT/3 table, crosscuts are safe, precise and splinter-free.

Insets

Make cutouts in doors or panels with incredible ease and precision.

Countertops

Material-specific blades deliver superior cuts, and produce less wasted material.

Flooring

Perfect for crosscuts in flooring or for making precision cutouts for inlays.

Bevels & Miters

Effortlessly cut crisp, air-tight angles with extended bevel range.

Still wondering what a tracksaw can do for you? Learn from a pro.

Head over to **tracksaw.com** where professional remodeler Mike Sloggatt will walk you through a series of demonstrations. See for yourself how a Festool tracksaw can transform the way you work, and improve your results and productivity.

www.tracksaw.com/tracksaw/videos

Process sheet goods

Mike will walk you through the basics of the tracksaw system, with emphasis on breaking down large, heavy sheet goods such as plywood and MDF.

Quick, consistent rip-cutting

Mike demonstrates a quick, easy, and safe method of ripping plywood sheets down into equally sized panels or strips, a technique well-suited to producing cabinets and case goods.

Trim a door bottom

Mike uses the new TS 55 REQ to quickly and precisely trim down a door, with zero splintering. He also covers alternative methods, so you see just how much time can be saved with the TS System.

Beveling shelves

As an alternative to large, stationary equipment, you'll see the TS saw make complex bevel and miter cuts of any length. Since Mike works out of a small garage-based shop, you'll see how much valuable space can be saved with the TS System.

Back-bevel a door

Mike covers the process of back-beveling a door with the TS 55 REQ. Here, you'll get an idea for the time savings, efficiency and precision that can be gained by introducing a Festool tracksaw into your workflow.

Incredibly versatile.

TS 55 REQ

A whole new standard

The TS 55 REQ is not your standard circular saw. With its accuracy and versatility, a better comparison would be to the most advanced table saws, miter saws or panel saws available. Throw in its incredible portability and unbelievable ease of use, and you have a precision-cutting solution like no other, at home in the highest-end cabinet shop as well as an onsite remodel. With the addition of micro-adjustable depth controls and a flat housing for flush-cutting against walls or adjacent surfaces, the TS 55 REQ is our most advanced plunge cut saw ever, which is saying a lot.

TS 55 REQ

\$585.00

561 556

Includes: 48-tooth Carbide Blade, 55" Guide Rail, Splinterguard, Limit Stop, Plug-it Power Cord, T-Loc Systainer SYS 4

“With the TS 55, I now own a ‘mobile’ table saw! Precise, easier and faster set-up time, furniture-quality cuts with NO chip out and more importantly: I can use it vertically, diagonally and horizontally! Try that with a table saw!”

Harlan B., Washington

Specifications

Power: 1200 w / 10 a 120 V AC

Saw blade speed: 2,000 - 5,200 rpm

Saw blade dia.: 6-1/4" (160 mm)

Bevel cuts: -1° - 47° (stops at 0°, 45°)

Cutting depth on rail: 1-15/16" at 0° and 1-7/16" at 45°

Cutting depth without rail: 2-1/8" straight down

Cutting depth at 45°: 1-11/16"

Weight: 9.92 lbs

For details on the TS Saws
and accessories, visit
www.tracksaw.com

Unbelievably simple.

TS 75 EQ

Power and precision

Experience the incredible power of the TS 75 Plunge Cut Saw, capable of slicing through material up to 2 3/4" thick. This saw will leave an edge that is both burn- and splinter-free; to the extent that your edges will be clean enough to glue without any further prep work. Save time and create matched panels by cutting stacked-sheet goods in one pass. Use the TS just once and work will be so simple, so efficient, you'll wonder why you bothered with other tools for so long.

TS 75 EQ

\$695.00
561 438

Includes: 36-tooth Carbide Blade, 75" Guide Rail, Splinterguard, Limit Stop, Plug-it Power Cord, T-Loc Systainer SYS 5

"The TS saw is the most valuable tool I own. I use it in cabinetmaking and installing. It speeds up my work and is so accurate. I have sold a lot of people on this tool out in the field. It is the one tool I will never replace."

Dennis M., Oregon

Specifications

Power: 1600 w / 13 a 120 V AC

Saw blade speed: 1,350 - 3,550 rpm

Saw blade dia.: 8-1/4" (210 mm)

Bevel cuts: 0° - 47° (stops at 0°, 45°)

Cutting depth on rail: 2-3/4" at 0°
and 2-1/8" at 45°

Cutting depth without rail:
2-15/16" straight down

Cutting depth at 45°: 2-1/8"

Weight: 13.6 lbs

Saw Blades

A specific application and material will warrant a certain combination of shape, type, and number of teeth in a saw blade.

Visit festoolusa.com or see page 50 of our 2013 Catalog for a complete lineup of blades.

Parallel Guide Extension Set

\$325.00
P00108

This adjustable system engages the material edge parallel to the cut line, giving you precise, repeatable cuts every time. It's perfect for the accurate and consistent ripping of sheet goods. Includes Parallel Guides and Extensions.

Guide Rail Accessory Kit

The perfect companion for any Guide Rail, the Accessory Kit helps you produce perfect and consistent cuts or routs in any material. Includes everything you need to get the most out of your FS Guide Rail System.

\$200.00
497 657

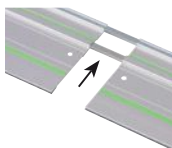

Kit includes:

Multifunction Tables

Take them anywhere

A stable workbench is critical to nearly all cutting operations and assembly work, but the inability to move it from workshop to jobsite can be limiting. No more. The MFT/3 multifunction table system is a versatile, flexible, and economical solution that enables you to achieve the same level of precision, regardless of location.

Every element of the MFT/3 system was designed to deliver the ultimate in clamping and security for your material processing tasks, whether in the shop or onsite.

A stable and versatile workstation.

Dust Extraction is the heart of the Festool System

Why dust extraction?

Dust control shouldn't be an afterthought, not when it can save you time, increase your efficiency, improve your finished results, and even lead to more referrals from satisfied customers. Whether you're working in the shop or on the jobsite, a well-designed dust extraction system should remove dust at the source, or point of creation. After all, clean air and fast cleanup are things that both you and your customers can appreciate.

Faster. With proper dust extraction and filtration, you'll work faster with less need for clean-up, saving substantial time and money.

Easier. The Dust Extractor is the heart of the Festool System, significantly increasing the capability and value of virtually all your tools.

Smarter. With 5 different size options and a wide range of accessories, you can easily configure a dust extraction system to suit your needs, whether in the shop or on the jobsite

"The customer shouldn't recognize that we were here except that the color of the walls has changed. With the Festool system there is literally no dust."

Paul Willems, Manitoba, Canada

"My clients love the fact that I can work in their homes with my Festools and leave very little dust in the air and throughout their house. My CT elicits more questions and praise than all my other tools combined."

Larry C., Tennessee

Mobility & Storage

Protect, store and transport

Let's face it - your workday doesn't begin with the simple pull of a tool's trigger, but with getting to and from the jobsite, and by getting your materials and tools organized for the task ahead. Though proper organization is often an afterthought, it can have a huge potential impact on how much you get done in a limited amount of time. Festool's extensive lineup of time-saving organization solutions can shave precious hours off your workday, adding time back to your schedule and dollars back to your bottom line.

We make a big deal about even the smallest details

The newer style T-LOC Systainer is designed for compatibility with Classic Systainers, Dust Extractors, SYS-Carts and more.

T-LOC (Lock, Open, Connect)

Storing, transporting, and accessing tools, accessories, and consumables is easier and faster than ever.

Stackable

All standard Systainers have similar dimensions for easy stacking, storing, and transport.

Mobility

Can be mounted on an independent rolling base, called a SYS-Cart, or mounted on CT Dust Extractors via SYS-Dock feature for quick and easy transportation.

The SYS-Roll

High-speed transport

Weighing in at a mere 14.3 lbs and with a capacity of 220 lbs, the SYS-Roll provides a simple, convenient means to get your Festool Systainers to and from the worksite, no matter the terrain. Integrated storage secures small parts essential to the task at hand, reinforced risers tackle stairs with ease, and large, locking casters make sure your stack put.

SYS-Roll

\$175.00
498 660

Workcenter WCR 1000

Do more with your CT

How much time do you waste as a result of your equipment being scattered all over the place instead of being where you really need it? With the Festool WCR 1000 Workcenter, you'll have all your critical equipment right at hand, saving time and needless searches. The Workcenter mounts to nearly any Festool Dust Extractor, for a flexible, convenient, and portable solution that frees you up to move around the jobsite, from task to task.

WCR 1000

\$385.00
498 507

CT Dust Extractor not included.

The SYS-Cart

Low-profile portability

The most efficient workshops incorporate an array of wheeled, mobile solutions, so workstations can be reconfigured at a moment's notice. Enhance your own efficiency with a new low-profile, rugged SYS-Cart that allows you to create custom assortments of tools and accessories for job-specific tasks. Large 3-15/16" locking casters easily maneuver cracks and obstacles, while ensuring that your goods stay put. Locking latches grip your SYS-components securely, while a wide base eliminates concern over top-heavy stacks of equipment. Easily transport up to 220 lbs in less time, and with less fatigue.

SYS-Cart

\$85.00

495 020

The SYS-Toolbox

Easily access critical items

Save time through better organization with the new open-face SYS-Toolbox. The easy-access design of the SYS-Toolbox allows you to keep what you need within easy reach—you'll spend less time searching for frequently used tools and accessories. A perfect complement to the Festool Systainer System, the SYS-Toolbox latches seamlessly and securely to the top of additional Toolbox units as well as T-Loc and Classic style Systainers.

SYS-Toolbox

\$49.00

495 024

CT Dust Extractor not included.

The SYS-Port

Organization on wheels

A clean, well-organized shop is the sign of a professional who's paying attention to their bottom line. These durable metal cabinets and sturdy locking drawers give you ample space to organize and store critical equipment, task-specific tools, and accessories. This secure and stable workstation features smooth-rolling, locking casters, so you can effortlessly move equipment around the shop or wherever the work mandates. Height-adjustable drawer slides can be configured for different size Systainers and Sortainers.

SYS-Port

\$650.00

491 922

Includes: 5 Systainer telescopic drawers and 4 casters. Systainer boxes not included.

"The most useful Festool tool I own has been the Systainers. It just takes me minutes to move my tools around the house and seconds to find screws and bits. Voila — I have a portable and compact workshop!"

Elizabeth L., Arizona

CMS Routing System

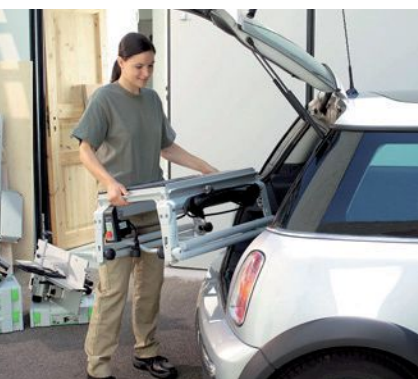

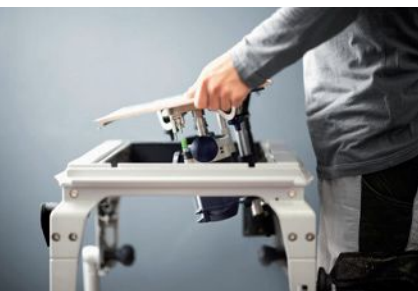

Portable precision for your most exacting needs

Built for precision above all else, the CMS System features tremendous adjustability plus a host of features that combine to help you control the workpiece, so you get uncompromised results. A smooth-as-glass sliding table, exacting miter gauge, solid extension table, plus featherboard and hold-down options come together to deliver a precise, yet portable routing solution that is at home in the workshop or on the jobsite.

A System From the Ground Up

Designed to work seamlessly with the Festool OF 1400 and OF 1010 routers, the CMS System delivers maximum precision, efficiency, and ease of use without all the fuss and hassle of a patchwork system.

CMS-GE Routing System

With the compact portability and footprint of a bench-top router table, the CMS-GE is ready to go where the work takes you, so you can carry workshop-level precision right into your customer's kitchen.

Scan to see the CMS in action.

CMS-GE Router Table Set **\$1,600.00**

TI 15 Hybrid Impact/Drill Driver

Knock out your driving tasks with impact

Building on a long history of brushless motor technology, the Festool TI 15 combines the benefits of a powerful, long-running impact driver with capability of a drill-driver. Effortlessly drive an 8" lag bolt into solid wood, and then easily switch over to drive a screw into a tricky corner, or even the most delicate workpiece.

TI 15 Li 3.0 Ah

\$525.00
564 291

Includes: Drill/Driver Adapter, Centrotec Impact Bit Holder, 1/2" Keyless Chuck, Centrotec Chuck, 2 Batteries (14.4 V 3.0 Ah), Charger, Systainer 1

TI 15 Li 3.0 Ah Basic

\$350.00
564 358

564 261

Includes: FastFix Keyless Chuck and Centrotec Chuck, 2 Batteries, Charger, Systainer 1

All Festool Drills now feature a comprehensive 3-year warranty, covering drills, batteries and chargers.

SysLite LED Worklamp

See what you've been missing

Whether your work takes you under a cabinet or crawlspace, or to an attic or the outdoors, the SysLite's robust build and shock-resistant body is easy to carry and designed to perform when you need it most. Six high-efficiency, LED bulbs will provide even, consistent light for up to four hours on a single charge, longer when paired with a Festool battery, and without interruption when plugged directly to a power source.

Rubin 2 Abrasives

Rapid grit progression for wood applications

40 Grit Range 220

The ultimate abrasive for all wood applications, designed for fast and easy grit progression, while virtually eliminating swirl marks.

Building on the industry-leading performance of the original Rubin abrasive, Festool's Rubin 2 sets a new standard for efficiency, perfect for all wood-finishing applications. Rubin 2 is designed to minimize the time spent on each level with a 30% faster removal rate and a 30% longer sheet life.

Finish Faster

Rubin 2 is designed to quickly shed wood fibers, eliminating clogging so the abrasive stays sharp, leading to a 30% faster removal rate.

Save Money

Since Rubin 2 is designed to prevent clogging due to the buildup of pitch and wood fibers, you'll get up to 30% longer life out of every sheet.

Your Best Finish

Designed for rapid grit progression, you'll spend less time getting from 80 to 220, achieving the best possible finished surface in the least amount of time.

Granat Abrasives

Our most versatile abrasive

40

Grit Range

1500

Ultra-versatile, durable abrasive helps you achieve exceptional results on most modern paint systems, bare wood, plastics and solid surfaces.

Thanks to its amazing versatility and durability, Festool's Granat abrasive is gaining a reputation as the "ultimate abrasive" for both finished and bare wood surfaces. Originally designed for solvent-based high-VOC surfaces and paints, its anti-clogging properties are well suited for a broad range of applications, including clear coats, composites, mineral and solid surfaces, in addition to wood and wood-based materials.

Versatile

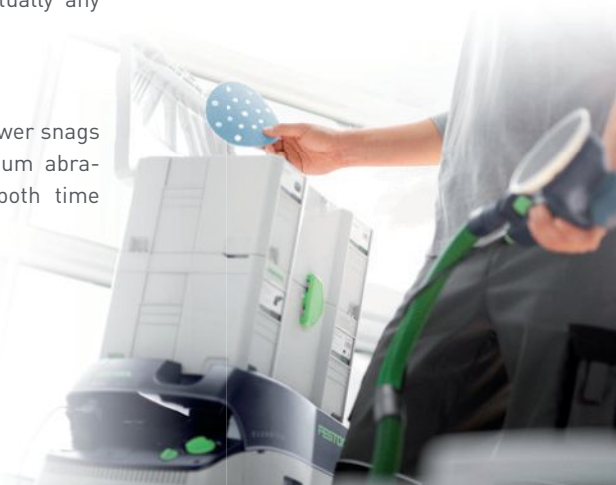

Exceptional anti-clogging properties make Granat an ideal solution for a wide range of painted and finished surfaces, in addition to virtually any wood application.

"The Granat paper is my new favorite! I have been able to sand much more on one sheet of Granat than I have with any other paper."

Dave, New Jersey

Long-lasting

A durable backing means fewer snags and tears, ensuring maximum abrasive performance, saving both time and money.
